

ST.DANIEL CHURCH

The historical St. Daniel church built in 1110 A.D. on the ruins of an old monastery of the prophet Elijah.

ASSI GROTTTO

Assi Grotto located at an altitude of 1300 meters, into a hollow cliff made by geological factors, and it overlooks the Quadisha River at a height of 550 meters. The Grotto's entrance rises 40 meters above the ground, and if we look at it we find that no grotto deserved to earn its name as much as the Assi Grotto. It was the shelter of the habitant during the Mamluk attacks in 1283.
