

The historical St. Daniel church built in 1110 A.D. on the ruins of an old monastery of the prophet Elijah.

ST.DANIEL CHURCH

Assi Grotto located at an altitude of 1300 meters, into a hollow cliff made by geological factors, and it overlooks the Qadisha River at a height of 550 meters. The Grotto's entrance rises 40 meters above the ground, and if we look at it we find that no grotto deserved to earn its name as much as the Assi Grotto. It was the shelter of the inhabitant during the Mamluk attacks in 1283.

ASSI GROTTTO

HADATH EL JEBBEH

Where Heritage Embraces Nature

Agenda – 2018

THE OLD WATER SOURCE

ANCIENT SARCOPHAGUS

Hadath el Jebbeh is one of the oldest villages in the mountains of Lebanon, located in Bcharre district 100 km away from Beirut at an altitude of 1500 meters. It is distinguished by a healthy climate and beautiful nature which has made it a popular tourist destination.

POINTS OF ATTRACTION

Destination : Beirut Byblos Chekka Amioun Qnat Hadath el Jebbeh.

St Simon's peak , an altitude of 2125m is the destination for high mountains enthusiasts.

ST.SIMON'S PEAK

The Cedars forest, one of the most important high density cedars forest in Lebanon. Three hundred thousand trees of Cedrus Libani type. It is the home for hundreds of endangered rock herbs and wild flowers; dozens of species of birds and wild animals as well as different types of mushrooms. It sheltered Prince Bashir 2nd during the Ottomans persecution.
